Technical Skills

- Frontend:** HTML5, CSS3, JavaScript, Angular, Bootstrap, TypeScript, JQuery
- Backend:** C#, ASP.NET MVC, .NET, REST API
- Database:** MySQL, DB2
- Cloud Computing:** Microsoft Azure (AZ-900 Certified), Microsoft Azure Developer (AZ-204 Certified), Microsoft Azure DevOps Expert (AZ-400 Certified)
- Artificial Intelligence:** Microsoft AI (AI-900 Certified), Microsoft Azure AI Engineer Associate (AI-102 Certified), led IBM WatsonX challenge team
- Tools & Others:** Git, BitBucket, Visual Studio code, Visual Studio, system Design, Data Structures and Algorithms, SOLID principles, design patterns
- DevOps:** Azure DevOps

Summary

Versatile Full Stack Developer with 5+ years of experience in delivering high-quality, scalable web applications using Angular, .NET Core, and ASP.NET MVC. Skilled in building responsive user interfaces and robust backend services. Certified Azure AI Engineer and DevOps with hands-on experience in version control using Git. Adept at managing end-to-end development lifecycles, collaborating across teams, and contributing to enterprise solutions in logistics and healthcare.

Working Experience

- July 2024 – May 2025

Tech Mahindra (Full-time job)
Sr. Software Developer
Nagpur, India

 - Developed and maintained scalable logistics applications aligned with evolving business requirements.
 - Enhanced key modules of the **Symphony Application**, including **real-time tracking, route management, order processing, and inventory reservation** to improve logistics efficiency and system reliability.
 - Led the development of user interfaces using **Angular 16**, focusing on performance, user experience, and reusable component architecture.
 - Spearheaded the **mobile adaptation** of the Symphony application, improving responsiveness and development efficiency.
 - Optimized the existing codebase, resulting in a **30%** reduction in load times and improved overall performance.
 - Ensured continuous integration and deployment through automated pipelines using **Azure DevOps**, with effective version control via **Git**.
 - Utilized a robust technology stack including **Angular 16, C#, TypeScript, JavaScript, CSS**, and development tools such as **Visual Studio 2022** and **Visual Studio Code**.
- Feb 2022 – June 2024

IBM India
Software Developer
Pune, India

 - Developed, maintained and implemented scalable applications using **Angular 14, .NET Core 6, ASP.NET MVC**, and **.NET Core Web API**.
 - Utilized **AG Grid** for efficient data management and built **RESTful APIs, microservices, and middleware components**.
 - Led the development of reusable components adopted across five applications, improving consistency, efficiency, and boosting performance by **25%**.
 - Developed a **Content Management System (CMS)** used by multiple applications, streamlining content handling workflows.
 - Designed and implemented a **Reference Data Management System** to provide essential data to downstream applications.
 - Resolved critical defects across multiple modules, improving overall application stability and reducing issue resolution time.
 - Participated in the **IBM WatsonX Challenge** as part of a 10-member team, contributing to innovative solutions.
 - Technologies: **Angular 14, .NET Core 6, ASP.NET MVC, .NET Core Web API, C#, JavaScript, TypeScript, Azure DevOps, Git, Visual Studio 2022**.
- Oct 2019 – Feb 2022

Atos Syntel
Software Developer
Pune, India

 - Developed and maintained enterprise-level desktop application and web application in the healthcare domain.
 - Built responsive desktop interfaces using **.NET UI frameworks** such as **WinForms** and **WPF**.
 - Created and maintained reusable **NuGet packages** to ensure consistency and promote code reuse across projects.
 - Performed thorough **unit testing**.
 - Implemented **CI/CD pipelines** with **Azure DevOps** and used **Git** for efficient version control and collaboration.
 - Technologies: **WinForms, WPF, Angular, .NET Core 6, ASP.NET MVC, .NET Core Web API, C#, JavaScript, TypeScript, HTML5, CSS3, Azure DevOps, Git, Visual Studio 2019**.

Akanksha Rokde

Software Developer

Education

2015 – 2019

**Degree- Bachelor of Engineering in Information Technology.
Nagpur university, India**

Courses: Data Structures, Design and Analysis of Algorithms, Networking, Operating Systems, SDLC, Object-Oriented Programming, DBMS, Software Engineering & Project Management, Agile Methodologies, system Design ,Network Programming , Cloud Computing

Certifications

- Microsoft AZ-900: Azure Fundamentals
- Microsoft AI-102: Azure AI Engineer Associate
- Microsoft AI-900: Microsoft AI Fundamentals
- Microsoft AZ-400: Azure DevOps Expert
- IBM Generative AI Foundations Badge
- IBM Watsonx Essentials Badge
- IBM Travel and Transportation Badge
- IBM Security and Privacy Badge
