Technical Skills

- ★ **Frontend:** HTML5, CSS3, JS, Angular (14/16), Bootstrap, TS, jQuery
- ★ **Backend:** C#, .NET Core 6, ASP.NET MVC, Web API, REST API, Windows Forms (WinForms)
- ★ **Cloud:** Azure (AZ-900, AZ-204, AZ-400 Certified)
- ★ **AI:** AI-900, AI-102 Certified, IBM WatsonX Lead
- ★ **Tools:** Git, BitBucket, VS Code, Visual Studio 2026, Cursor, GitHub Copilot

Summary

Senior Full-Stack Engineer with 7+ years of experience engineering and architecting enterprise-grade desktop/web applications across **railway engineering, logistics, and healthcare**. Proven track record in designing scalable **.NET Core, C#, WinForms, and Angular** solutions, microservices, and system boundaries. Domain expert in **track geometry analysis**, coordinate-based re-stationing, and global railway compliance standards (Deutsche Bahn *D1/D2*, Travel Chords). Certified **Azure AI Engineer Associate (AI-102)** skilled in high-level technical design, OCR automation, and optimized geospatial data processing. Currently transitioning toward a Solutions Architect role, leveraging strong experience in system design, software architecture, cloud technologies, and technical solution development.

Working Experience

- Jan 2026 – Present

Software Developer II **Trimble Inc., Germany**
 - Defined domain boundaries and system integration rules for geospatial track analysis software in alignment with senior architects.
 - Engineered core algorithms to align **measured tracks against design tracks**, recalculating spatial coordinates for **new track stationing and updated chainage alignment**.
 - Developed railway quality reporting modules for **Travel Chord, Relative Travel Chord, and D1/D2 reports** (Deutsche Bahn & global standards).
 - Designed the **Gedo Office Quality Reporting Framework** (WinForms) visualizing geometry tolerances, gauge deviations, and alignment accuracy.
 - Architected an automated **PDF Plan Recognition System using OCR**, extracting design metadata and cutting manual entry by **90%**.
 - Collaborated directly with architects to define system boundaries, leading code reviews and driving modern architecture adoption.
- Jul 2024 – May 2025

Senior Software Developer **Tech Mahindra, India**
 - Engineered logistics apps for **UPS** using microservices in **C#, .NET Web API, RabbitMQ, and Angular 16**, boosting reliability by 20%.
 - Enhanced core modules of **Symphony Application** (real-time tracking, route management, order processing, inventory reservation).
 - Led frontend development using **Angular 16** reusable component architecture and mobile adaptation for 100+ daily users.
 - Cut load times by 30% and technical debt by 70% via **SonarQube** code optimization.
- Feb 2022 – Jun 2024

Software Developer **IBM, India**
 - Developed enterprise apps for UPS using **Angular 14, .NET Core 6, ASP.NET MVC**, and RESTful Web APIs.
 - Utilized **AG Grid** for high-performance data grids, microservices, middleware components, and Domain-Driven Design (DDD).
 - Built reusable component libraries adopted across 5 apps, increasing UI consistency and boosting system performance by 25%.
 - Designed a **CMS and Reference Data Management System** serving 10+ downstream apps, cutting redundant storage by 35%.
 - Integrated **Azure AD SSO** for secure authentication and resolved 300+ critical defects; led 10 members in **IBM WatsonX Challenge**.
- Oct 2019 – Feb 2022

Software Developer **Atos Syntel, India**
 - Developed enterprise desktop and web applications in healthcare domain used by 5,000+ **Humana** users.
 - Built responsive desktop interfaces using **WinForms** and **WPF**, alongside web UI development using **Angular**.
 - Published and maintained 10+ reusable **NuGet packages**, improving developer efficiency by 15%.
 - Performed unit testing, managed deployments ensuring 99.9% up-time, and established automated CI/CD pipelines via **Azure DevOps**.

Akanksha Rokde

Software Developer

More Skills

- ★ **Architecture:** Microservices, Layered architecture, System Design, SOLID, OOP, Design Patterns
- ★ **Core Concepts:** Data Structures & Algorithms, Debugging
- ★ **Messaging:** RabbitMQ
- ★ **Testing & CI/CD:** XUnit, SonarQube, Git, Azure DevOps
- ★ **Methodologies:** Agile, Scrum

Education

2015 – 2019 **B.E. in Information Technology** **Nagpur University, India**
Courses: Data Structures & Algorithms, Operating Systems, Networking, DBMS, Object-Oriented Programming, SDLC, System Design, Software Engineering, Agile Methodologies, Cloud Computing.

Certifications

- Microsoft AZ-900: Azure Fundamentals
- Microsoft AZ-204: Azure Developer Associate
- Microsoft AZ-400: Azure DevOps Expert
- Microsoft AI-102: Azure AI Engineer Associate
- Microsoft AI-900: Microsoft AI Fundamentals
- IBM Generative AI Foundations Badge & IBM Watsonx Essentials Badge
- IBM Travel and Transportation Badge & IBM Security and Privacy Badge
- O'Reilly Software Architecture Expert Badge
